

MAI TIEU BAO

SOFTWARE ENGINEER INTERN

Address: 2 Hai Son, Da Nang City
Phone: 0382-640-057
Email: baomttd01287@gmail.com
Github: <https://github.com/maitieubao>

SUMMARY

Backend-oriented Software Engineering student with strong hands-on experience in designing scalable web applications using ASP.NET Core and Clean Architecture. Experienced in building production-like systems with focus on performance optimization, concurrency handling, and system reliability. Developed an AI-powered music streaming platform integrating Semantic Kernel and external APIs, with real-world problem solving in caching, database stability, and asynchronous processing.

KEY PROJECTS

VibeMusic – AI-powered Music Streaming Platform

Mar 2026 - Present

- Designed a production-oriented backend using Clean Architecture (Onion Architecture), ensuring separation of concerns across layers.
- Improved API response time by ~8x (from ~6s to <1s) using parallel execution and multi-layer caching strategy.
- Handled EF Core concurrency by isolating DbContext using IServiceScopeFactory to avoid thread-safety issues.
- Integrated AI agent system using Semantic Kernel and Gemini API with plugin-based architecture.
- Implemented retry logic for handling API rate limits (HTTP 429) and background queue for asynchronous processing.

EDUCATION

FPT Polytechnic – Da Nang, Vietnam

Sep 2024 - Present

- Major: Software Development
- GPA: 9.6 / 10

TECHNICAL SKILLS

- Programming:** C#, JavaScript
- Backend:** ASP.NET Core, RESTful API, Clean Architecture, Dependency Injection
- Frontend (supporting):** Vue.js, JavaScript, HTML/CSS
- Database:** Entity Framework Core, SQL Server, PostgreSQL
- Architecture & Concepts:** Repository Pattern, Unit of Work, Concurrency Handling, Caching Strategies
- Tools:** Docker, Git, GitHub, Postman
- AI & Integration:** Semantic Kernel, Gemini API

ACHIEVEMENTS

- Finalist – FPT Hackathon 2025 (AI Logistics Solution)
- Top 8 – GDG DevFest MienTrung Hackathon 2025

SOFTSKILLS & LANGUAGES

- Problem-solving, System thinking, Debugging skills, Continuous learning
- English: Intermediate (strong technical reading & documentation understanding)
